

A hand is shown holding water, with several droplets falling from the fingers. The background is a cracked, arid desert landscape. In the bottom left corner, a small green plant with two leaves is growing out of the cracked earth. The entire image is framed by a white, stylized border that resembles a mountain peak or a shield.

Treatment, Plain City
Elementary, Roy High,
Canyon View

Years of Service:
20 in Weber School District. Prior to that, I
worked for 10 years with the State of Utah.

Memories: I will never forget those moments when students beamed with pride as they learned skills they thought they would never learn and how they expressed this in so many different ways. The student who said, “I didn’t know how to read. Now I can!”. The 1st grader who was learning to raise his hand and did so when he needed to go to the bathroom and the teacher called on him, exclaimed, “It works!”. The students, who’s mantra was, “I suck at math.” started to say, “I get it now.” I will never forget the behavior techs who worked along side me and the interesting situations we found ourselves in only to celebrate the successes and persevere through the failures and to “dare greatly” day in and day out.

Memories: It's been both a humbling and wonderful experience to be an educator. Not always easy, but always rewarding. As a Math Teacher, I taught that the shortest distance between two points is a straight line. As a Counselor, I soon realized that life and all it's ups and downs is rarely a straight path. The opportunity to support students in their educational journey has been a pleasure and a privilege.

Future plans: Time with family will be an exciting priority. 6 children, 14 grandchildren, and a wonderful wife Cyndi will make this part fun and exciting. Church service opportunities, including fulltime service wherever we are needed, will provide wonderful learning and growing experiences. Looking forward to being a lifelong learner, camping, traveling, and continuing to enjoy sports officiating.

Future plans: I want to learn to play the piano that had been sitting in my living room for 25 years. I will be working hard at my favorite job of being a grandma to 12 wonderful grandkids and more to come. I will be hiking, biking, kayaking, and pickle ball playing as much as possible.
