Final Assignment: North Ogden Elementary

Other Assignments: West Weber, Washington Terrace, Midland, Majestic, Harriman (Jordan Dist) Green Acres, and Lakeview

Service: 27 years in Weber School District. 30 total.

Memories: "My number one memory is the joy of watching students learn something new that interests them. Their eyes! Next memory would be from the years I taught at the old Washington Terrace building with Jill Jacobson. Our classes would play dodgeball almost everyday all year long. This was by far the most fun and memorable of my teaching career. The students gained so much confidence and determination to succeed and it transferred to the classroom. Mrs. J. and I would get comments from the 6th grade teachers to not send them to them with so much confidence. What a compliment! Finally, I would not be the same teacher if I had not taught at Lakeview. My teammates, the staff, my principal, and my students bonded strongly over the 10 years there. The Lakeview team, with Mrs. Passey, encountered and overcame so many challenges. The students came to school, learned, thrived, and became leaders.

I would like to thank WSD for everything you have done for our children and employees, especially the last 2 years. Also, a huge shout out to my teammates over the years. Team work is what makes this job possible.

Future plans: Travel with Mike and our hot air balloon group. Get my CDL license. I've got things to do and places to see.

Wahlquist Jr. , North Ogden Jr. , Orion Jr. . I have also supervised Speech-Language Technicians and Graduate students at multiple school settings.

Years of Service: 24 in Weber School District.

Memories: Some of my most wonderful memories have involved working alongside and learning from so many great principals, talented teachers and dedicated staff employees. Student highlights have included helping students achieve their goals and seeing huge smiles when they put on a 'speech' graduation cap and graduate from speech therapy. Also, all the "I love you's!", "I don't want to ever graduate from speech!" and huge hugs (fist bumps, during Covid) have been the greatest rewards in a sometimes very challenging profession. A fun bonus was my being able to work at a school that six of my own grandchildren attended.

Future plans: I want to enjoy more relaxing days at the cabin reading my huge stacks of patiently waiting books and playing games with my grandchildren. I hope to relearn the cello, spend more time at the piano, garden, crochet, volunteer where needed, serve a mission with my husband, and of course travel. Oh, the places I will go! (I hope).

I was able to attend Weber High and then was privileged to come back and teach at the best school around. I will always remember the feeling I get whenever we sing the school hymn and will never forget the memories that it brings back.

Future plans: I plan to spend a lot of time with family, especially my grand son. I am planning on doing a lot of traveling and camping with my husband and family. I look forward to playing golf, and pickleball and just trying to stay busy. We are also considering possibly serving a mission for the Church of Jesus Christ of Latter day Saints.

Lori Welch

Final Assignment: Home/Hospital Teacher

Other Assignments: South Jr. High, Adult Education, Two Rivers PM School

Years of Service: 30 in Weber School District.

Memories: When the light bulb of understanding hits and students of all ages realize that they can do math.

Future plans: I have a great deal of future to look forward to. Traveling the world would initiate an experience of a lifetime. Cruising around the ocean in an unsinkable ship would bring pleasure to ones existence. Adventures while exploring nature, above and below ground, would usher in wonder and glee into any day. Humor and laughter at the funny moments of growing old. Life has so much to offer. My plans for the future are to take it one day at a time and find happiness even if it is not perfect.

Robyn Zellmer

Final Assignment: 3rd Grade Teacher, Pioneer Elementary School - 23 years

Other Assignments: 1st & 2nd Grade Teacher, Christian Heritage School, 4 years; State Government; 10 years

Service: 23 years in Weber School District. 27 total.

Memories: Teaching has been a fantastic journey. The time really has flown by. I count it a privilege to have taught at the same school I attended.

I've worked alongside many wonderful people; including principals who respected, challenged, and encouraged me, teammates who are like family, other teachers, and support staff. All are simply amazing people that I count as friends. I will miss them greatly. I've been reflecting recently on my responsibility to teach more than 500 students over the years. That is a lot of lives! Each one holds a special place in my heart. I pray that I was able to provide the knowledge and love each one needed as they passed through my classroom. I entered teaching using ditto machines and will leave using Google forms. It's time to pass the torch to the younger generation. And let me not forget to mention - no more writing sub plans!

Future plans: I plan to enjoy my retirement with my amazing husband Scott who is also retiring this year. Together, we plan to sleep in, travel, golf, hike, spend time with our families, and serve God in whatever opportunities he provides. We have two awesome grandsons, Wylder and Maverick, who we plan to enjoy spending as much time with as possible.

Junior High; Administrative Intern Weber High; Special Education Teacher, Canyon View High School

Memories: I am grateful for the privilege I have had to work for Weber School District for the past 30 years as a teacher, site administrator, and district office administrator. I have many great memories and they are all about the people I have been associated with. I am grateful for the staffs at Farr West, Roosevelt and Kaneshville who made my job fun and who allowed me to be a part of the miracles they performed in their classrooms each and every day. I am indebted to the secretaries;

Becky, Kaylynn, Helen, Kelly, Melanie, and Chrissy who worked tirelessly to keep me out of trouble. My favorite day each year as an Elementary School Principal was the last day of school when I was able to meet with the exiting 6th graders one last time, hand them a pocket constitution, remind them of the responsibilities we all have as citizens, and send them off to Junior High with the feelings of a father sending his young out to meet the world. My hope is that the students who I worked with over the years

always knew that Mr. Z was in their corner. Now, more than ever, The future is so bright, we gotta wear shades.

Future plans: Enjoying a full life with my beautiful wife Robyn Zellmer who is also retiring this year. We plan to travel, golf, hike, spend time with family, and serve God in whatever opportunities he provides. Steve Kendall

Final Assignment: Weber High School Bus Driver

Other Assignments: Sub bus driver around Club Heights and T H Bell area. Then there was an opening in the Valley and I've been there ever since.

Years of Service: 19 in Weber School District.

Memories: When I was subbing, I was driving in the old Wahlquist area one afternoon, stopped at the intersection and a man in a van pulls up to the side and motioned to me. I rolled down the window and he said someone threw something out the bus window and it hit his van. I only saw one bus window open so I knew who it was, but no one would fess up. I told the kids we'd wait there until someone confessed. When no one did, I pretended to talk into the walkie-talkie, "this is Bus 844, I need a Sheriff's Office deputy on scene immediately." I went back to the kid, gave him some options. He chose to get off the bus and apologize to the man in the van. He accepted the apology. As the kid and I got back onto the bus, he asked, "is that Sheriff's deputy still coming for me?" I had no choice by to fake another call on the walkie-talkie, "this is Bus 844, we no longer need that sheriff's deputy. The situation is under control.

One spring, I had to break up a bad fist fight on the bus. I walked the two kids into the school and they dealt with the discipline, but for the next two years one of those kids always sat in the front seat near me because he couldn't be trusted to not start trouble in the back. That was years ago and recently I saw this kid in town. He hollered my name, I turned, and he embraced me in a big bear hug. He said, "If it weren't for you, Steve, I'd have never graduated.

Two sisters on the bus were always causing trouble. I made them sit in the front seat. One day, their mom was waiting for us at the bus stop and boy she

hollered at me up one side and down the other. I just listened and then drove off. Then one day around Christmas time, there she was waiting for me at the bus stop and I thought oh boy now what. When I opened the bus door, she gave me a box of candy.

Even Linda Carver rode my bus once. They gave me an award at one of the elementary schools, she presented it, and afterward she asked to ride my bus home so she could see what all the fuss was about.

Future plans: Back when I retired from Old Castle, I took the bus driver job because my wife was still working. She's retired now too so we plan to spend time with our 17 grandkids. If gas prices would come down, we may even do some traveling.

My show horse, Sadie, has taken three first place awards, and we are taking her to a big show in Vegas at the end of May. The trainer will then take her to the Pinto Nationals in Tulsa, OK and then down to the Paint World in Dallas/Ft Worth. They say, she won't come home because she's so prized, she'll be sold after that.

I will miss the people that I have worked with. Especially the amazing team that I have been a part of for the last three years at West Haven Elementary School. I consider us to be an extraordinary team in Weber School District. While there will be other things that I will miss, I clearly won't miss the 4:00 a.m. pings on my phone where I am required to find a sub. My plans for the future will include enjoying 6 of the 7 days of the week as a

Hearing kindergartners sing, "The driver on the bus goes round and round, swish, swish, swish, honk, honk, honk" as they all sing different verses... In unison. Pulling over on HWY 89 so students could watch the runner with the Olympic Torch run by, and causing 60+ Junior highers to be late for school. Dismissing kids off the bus telling them Gentlemen may go first. They didn't know what Gentlemen were. So many stories...
